Review

1. What is Autism Spectrum Disorder?
2. What are the main criteria for a diagnosis of ASD?
3. To the best of our knowledge, what causes autism?
4. What types of treatment might a person with ASD be receiving?

What most sticks in your mind
from what you learned last week?

What will we be doing today?

- Exercises with English vocabulary
- Exercises in converting to another language
- Practice sight translation exercises
- Post-test
- Course evaluation
